

FAQ

Hours: Currently our piercing studio is open Tuesday-Thursday 12-8 and Friday-Saturday 1-10. We take walk-ins on a first come first served basis. Generally we take our last walk-in about an 40 minutes before closing. If you plan to come by for a walk-in in the last hour we are open make sure to call ahead to check that we can get you in.

State ID Requirements: All clients must present valid state or government issued photographic ID prior to each piercing.

Minors being pierced must be accompanied by their parent or legal guardian.

Acceptable forms of ID are: State issued learners permit or driver's license, birth certificate, military ID or passport. Accompanying parent must have state issued photographic ID and names and addresses must match on parent and children's ID's. Please call and go over your particular situation with the piercer if names or addresses do not match.

Piercing Minors: Piercing minors is at the discretion of the piercer, generally we provide most basic piercings to clients 14 and older. Oral and Oral/facial piercings will not be performed on minors.

--Under no circumstances will nipple or genital piercings be performed on minors regardless of parental consent.--

--Earlobe piercings can be done on children 6 years and older depending on maturity, please bring the child in for a quick and free consultation with our piercer.--

Jewelry and Jewelry Quality: All initial piercings will be performed with:

ASTM F-136 Implant Grade Titanium

ASTM F-138 Implant Grade Steel

Pure Niobium

High quality non-porous lead-free glass

All jewelry is internally threaded or threadless.

All jewelry meets the criteria set forth by the Association of Professional Piercers. Jewelry comes with a lifetime quality guarantee from the manufacturer and most jewelry is made in the United States.

What to expect when you arrive: Our piercer will happily answer any and all questions you may have prior to the piercing. Jewelry options will be discussed and you will be assisted in finding the perfect piece for your new or existing piercing. Sometimes a quick private consultation is needed in the piercing room to fit jewelry for certain

piercings (such as nipple or genital piercings). After jewelry is selected you will fill out paperwork while the jewelry and needed instruments are being sterilized. Once in the piercing room the piercer will walk you through every step of the way. Generally piercings are very quick, your time in the piercing room will be brief and the piercing itself takes just the blink of an eye. After washing their hands the piercer will don gloves and clean and mark your piercing site. Once the site is agreed upon a second skin cleaning prep will be performed. The sterile tray will be opened and implements laid out for the piercing. Once the piercing is complete you'll get a chance to take a peek at the new you!

What happens after the piercing is done: Clients will be given verbal and written aftercare for the piercing and an option to purchase one of the many aftercare products we have available for sale. If the instructions get lost please feel free to email or stop by for another copy. It is advised to return in 3-4 weeks (2-3 for oral piercings) for a check up on the progress of your healing piercing. Many piercings swell and we pierce with jewelry to accommodate that. Once the piercing is no longer swollen, downsizing is a good decision and prevents potential complications from excess jewelry length. Please feel free to call, email or stop in to discuss any questions or concerns you have with your piercing and for any jewelry changes you might need help with. Keep in mind there are many websites with misinformation about piercings out there and advice from friends might not always be the most up to date information. We are always happy to help you in any way we are able!
